Acta Phytotax. Geobot., Volume 59 (2), July 2008

- Adjie B., M. Takamiya, M. Ohta, T. A. Ohsawa & Y. Watano
 - Molecular phylogeny of the lady fern genus *Athyrium* in Japan based on chloroplast *rbcL* and *trnL*;*trnF* sequences79
- Yahara, T. & H. Tsukaya
 - *Oxygyne yamashitae*, a new species of *Thismiaceae* from Yaku Island97
- Chaveerach, A., R. Sudmoon, T. Tanee & P. Mookamul
 - The species diversity of the genus *Piper* from Thailand105
- Kaneko, S., N. Nakagoshi, Y. Isagi
 - Origin of the endangered tetraploid *Adonis ramosa* (*Ranunculaceae*) assessed with chloroplast and nuclear DNA sequence data165

Short Communication

- Watanabe, K., T. Kobayashi & J. Murata
 - New and further chromosome number determinations in Japanese *Arisaema*175
- Tanaka, N. & T. Yukawa
 - *Eria carinata* (*Orchidaceae*), newly recorded from the Malay Peninsula179

New Names and Combinations182

Errata182
